

MICHIGAN DEPARTMENT OF CIVIL SERVICE
JOB SPECIFICATION

BRIDGE WORKER

JOB DESCRIPTION

Employees in this job use manual and motorized equipment to perform bridge maintenance and repair, routine construction work, and roadside improvements.

There are four classifications in this job.

Position Code Title – Bridge Worker -E

Bridge Worker 6

This is the entry level. The employee performs a range of bridge maintenance, repair, and construction assignments under close supervision in a learning capacity.

Bridge Worker 7

This is the intermediate level. The employee performs a range of bridge maintenance, repair, and construction assignments under general supervision in a developing capacity.

Bridge Worker E8

This is the experienced level. Employees at this level, as full-functioning bridge workers, perform a full range of maintenance, repair, and construction assignments and use judgment in making decisions where alternatives are determined by established procedures, methods, and practices.

Position Code Title – Bridge Worker -A

Bridge Worker 9

This is the advanced level. The employee functions as a crew leader and oversees the work of lower level bridge workers and others in the performance of equipment operations and maintenance activities.

NOTE: Employees generally progress through this series to the experienced-level based on satisfactory performance and possession of the required experience.

JOB DUTIES

NOTE: The job duties listed are typical examples of the work performed by positions in this job classification. Not all duties assigned to every position are included, nor is it expected that all positions will be assigned every duty.
